Yisrael Church Association (YCA)

Comprehensive Project Report: Hospital & Health Care Services

Project Title:	YCA Hospital & Health Care Initiative
Organization:	Yisrael Church Association (CIN: U94910MH2025NPL450486)
Director:	Praveen Dasharath Kamble
Date of Report:	October 2, 2026

1. EXECUTIVE SUMMARY & INTRODUCTION

The Yisrael Church Association (YCA) is deeply committed to holistic community development, spiritual uplifting, and humanitarian service. Recognizing that health is fundamental to human dignity and societal progress, the association has established a dedicated Health and Hospital Project. This initiative bridges the gap between vulnerable populations and essential medical services, ensuring that no individual is denied proper care due to financial hardship or lack of guidance.

2. CORE OBJECTIVES

The primary mission of the YCA Hospital Project is to provide accessible, affordable, and compassionate medical guidance and support to marginalized communities, rural families, and individuals facing severe health crises. We aim to combine medical excellence with emotional and spiritual resilience.

3. KEY SERVICES & ACTIVITIES

A. Health Counseling & Advisory Services

Offering professional health-related counseling to patients and their families, helping them understand diagnoses, treatment options, and preventive healthcare measures to maintain long-term well-being.

B. Hospital Admission & Navigation Assistance

Assisting patients through complex hospital admission processes, coordinating with medical institutions, and helping families navigate administrative procedures during medical emergencies.

C. Spiritual Healing & Emotional Support

Providing special prayer sessions, comforting counsel, and mental strength to ailing individuals and distressed families, reinforcing faith and hope during challenging times of illness.

D. Community Health Camps & Awareness

Organizing periodic medical check-up camps, blood donation drives, and health awareness seminars in rural and semi-urban areas of Maharashtra to promote early detection and preventive care.

E. Emergency Medical Aid & Subsidized Support

Facilitating financial and logistical support for economically weaker sections to acquire necessary medicines, emergency treatments, and critical care assistance through network partners and donors.

> *"Healing the body, comforting the mind, and uplifting the spirit — our steadfast commitment to humanity."*

4. FUTURE ROADMAP & EXPANSION

In the coming phases, YCA plans to expand its healthcare network by establishing permanent community clinics, partnering with multi-specialty hospitals for discounted charitable treatments, and deploying mobile health units to reach remote villages where healthcare access is severely limited.

5. CONCLUSION

The YCA Hospital Project stands as a beacon of hope and practical service. Through transparent administration, dedicated volunteers, and relentless social activism, Yisrael Church Association continues to transform lives and build a healthier, more compassionate society.
